Profile Summary

Ambitious 4th-year Computer Science student with a strong passion for learning new technologies and expanding programming expertise. Proficient in Python and C, with a keen interest in software development, problem-solving, and algorithm design. Dedicated to improving coding skills through hands-on projects and continuous learning. Eager to gain real-world experience, contribute to innovative software solutions, and build a strong foundation for a career in technology development. Committed to growing as a developer and making meaningful contributions to impactful projects.

Education

Bapuji Institute of Engineering and Technology, Davanagere

B.E in Computer Science and Design

Dec 2022 – April 2026

CGPA: 7.82

Pace P U Collage, Motebennur

Department Of Pre-University Education - PCMB

June 2020 – March 2022

Percentage: 90.67 %

Adarsha Central School, Byadgi

Central Board Of Secondary Education (CBSE)

June 2019 – March 2020

Percentage: 73.4 %

Technical Skills

Programming Language: Python, C, HTML, CSS, PHP

Tools & Platforms: Git, GitHub

Soft Skills : Adaptability, Creativity, Teamwork, Time management, Communication, Leadership.

Projects

Ayurvedic Cure - Symptom-Based Remedy Recommender 

Nov 2024

- Developed a system that suggests personalized Ayurvedic remedies based on user-reported symptoms, featuring real-time search and medicinal plant database integration for accurate recommendations.
- Tech Stack:** HTML, CSS, JavaScript, Python, MySQL.

Personalized Recommender System For E-Commerce Application Using Explainable AI (XAI)

May 2025 - Present

- Built a personalized product recommender system for e-commerce users, applying Explainable AI (XAI) to provide transparent and trustworthy recommendations with clear reasoning. Tech Stack: HTML, CSS, JavaScript, Python, MySQL.
- Tech Stack:** HTML, CSS, Python, JavaScript, MySQL, XAI (SHAP), React, FastAPI.

APMC Billing Automation System 

Dec 2024

- Built a web-based system to digitize and automate billing workflows for farmers and buyers in APMC. Implemented secure data management and auto-generation of bills to improve accuracy and efficiency.
- Tech Stack:** HTML, CSS, JavaScript, PHP, MySQL, Apache.

Achievements

Designed and developed a Smart Atmospheric Water Generation System (NAIN 2.0)

- Built with real-time humidity & temperature monitoring and automated control for efficient water extraction.
- Selected from 200+ teams and received project funding for innovation.

Responsibilities

Class Representative, CSD, BIET Davanagere

Nov 2023 – May 2024

Cultural Co-Ordinator, CSD, BIET Davanagere

May 2024 – Present
